HISTORIC & CULTURAL RESOURCES REVIEW

Property / Client Name:	Old Peshastin Mill Riparian Enhancement, 11-1446
Worksite Name/Number:	Port Peshastin Riparian (Worksite 1 of 1)
Funding Agency:	Rec. and Conserv. Office

Project Applicant	Chelan Co Natural Resource
Contact Person	Erin Fonville
Address	316 Washington Street, Suite 401
City, State, Zip	Wenatchee, WA 98801
Phone	(509) 677-6324
E-Mail	Erin.Fonville@co.chelan.wa.us

Funding Agency:

Organization	Rec. and Conserv. Office
Address	PO Box 40917
City, State, Zip	Olympia, WA 98504-0917
Phone	360-902-3000
Contact	Marc Duboiski, Email: marc.duboiski@rco.wa.gov

PLEASE DESCRIBE THE TYPE OF WORK TO BE COMPLETED

(Be as detailed as possible to avoid having to provide additional information)

Provide a detailed description of the proposed project:

This is a riparian enhancement project in which the overall objective is to increase the habitat diversity and quantity of a healthy, functioning riparian area by planting bare ground and adding native plants into the areas that are identified as missing the key vegetation components of a biologically diverse riparian area (e.g. willow layer, shrub layer, tree layer). The project is located near Peshastin, WA along the left bank of the Lower Wenatchee River at river mile 20.8 to 21.6 within a Category II watershed where the loss and degradation of riparian habitat has been identified as a limiting factor affecting habitat condition. The project will consist of installing a mixture of native forbs, shrubs and trees along approximately 4,198 linear feet (6.2 acres) to increase habitat diversity and quantity; installing a drip line irrigation system to ensure plant establishment; and a low impact nature trail that will incorporate salmon recovery educational opportunities through appropriate signage. The nature trail will be located on the upland side of the planting area and educate users of the importance of restoring riparian areas and salmon recovery efforts. The implementation of this project will assist salmon recovery efforts in the Columbia Cascade Province to benefit Upper Columbia steelhead, spring Chinook and bull trout along the Lower Wenatchee River during spawning, rearing and migration.

Describe existing project site conditions.

The site is currently zoned as campus industrial and is for sale or lease for development. There is no current use of the site with the exception that the Port is allowing the public to use the site for recreational purposes. The historic use of the site was a wood mill that was owned and operated by Peshastin Forest Products.

Describe any proposed ground disturbing activities. That is, will a tool(s) be used to move earth (soil, rock, gra

Hand shovels and tools will be used to prepare the soil for planting.
